R. J. Arey of the engineering department of the Santa Fe, with headquarters at Williams, was in the city to- posed crossing, to prevent the work day.

After visiting the rallway hospitals of New Mexico, Dr. J. P. Kaster, the chief surgeon of the Santa Pe, has returned to Topeka.

M. Henry, employed by the Santa Friday, says the Gallup Republican.

day here on business.

The Transcentinental Passenger association will meet at Los Angeles on all of the general passenger agents of all lines west of Chicago.

A number of Japs were in Gallup tracks, the last few days. They were in the employ of the Santa Fe road, but they quit, as they do not care to go any further east, and were dissatisfied to think they had been brought this far from Los Angeles.

James Connell, clerk at the day line desk of the local freight depot, has succeeded George Dewey as check cieric on the freight depot platform, sition vacated by Mr. Connell. Mr. Dewey will return to his ranch near the Zuni Indian reservation and look after his cattle interests during the coming winter.

The division superintendents and other officials on the main line of the Santa Fe are at Topeka arranging the new winter time card, while those of the coast lines are performing the same duty at Los Angeles. The Limited goes on as a daily train Novem ber 12. This train enjoys the dis-tinction at present of being the only train between Chicago and Califor nla exclusively for first-class passen

SOMETHING ALTOGETHER NEW IN TRACK USE.

An agreement has been effected be tween the Burlington and the Wabash railroads by which their parallel single track lines through a portlor of Missouri will be used jointly, thus giving both roads what will practically be a double track line. The arrangement is somewhat out of the or-dinary, but it is expected to prove of value to both systems. The tracks in question are between Kansas iCty and Birmingham, and are separated at most by a few hundred yards.

ANOTHER NOVELTY IN TEXAS RAILWAY DECISIONS.

Probably the most povel case ever brought before a state railroad commission with rate regulating power, and one believed to be without pre-cedent, came up in Texas recently. was more than was paid to other roads, proportionately. When the commission threatened to issue an emer gency order compelling acceptance the railroad surrendered.

FOUND ANCIENT BUT IMPORTANT BONES

Bert Hershey, craveling freight agent in charge of the industrial department of the Santa Fe, has re turned from a several days' expedi tion along the San Angelo branch bringing with him a most interesting collection of bones of some ancient giant of the animal kingdom. Owing to Mr. Hershey's extreme

modesty he will not submit to a lengthy discussion of his find, af this time, preferring to await developments in the investigation at the hands of more advanced students of the world and its inhabitants as it was in the very long ago, when the earth was young and flourishing.

LEADING OFFICIALS GO

TO THE WEST Notice of the election of B. R. Will iams as president; W. L. Darling a chief engineer, and A. H. Barkley as secretary-treasurer of the Pacific road, incorporated at Scattle, last week, has been filed. Mr. Williams resigned and dealy as manager of the Chicago, Mil wankee & St. Paul road immediately after the annual meeting of the company. Mr. Darling resigned as chief engineer of the Chicago, Rock Island & Pacific, soon after. It was stated by Chicago railway men when these resignations became known that the had been chosen to take charge of th Milwaukee coast extension work Their selection as officials of the Pa cific railroad is believed here to in dicate that the coast extension will be principally by the Pacific railroad.
